**Founder/Director**

**Winrose International Campus**

**Project Location**

**Bio Tea Garden**

**P.O.Box 02**

**Haldummulla**

**Sri Lanka**

## **Executive Summary**

Winrose International Campus is a **mission-driven, community-based holistic youth development institution** registered under the Tertiary and Vocational Education Commission of Sri Lanka as a **Vocational** Training Center, located in the cool hills of Blackwood between Beragala and Haputale Sri Lanka.

Winrose was named after combining the names of two great social workers in Sri Lanka who had dedicated their whole lives in uplifting the education and social standards of the people in the hill country. **Godwin** R. Samuel, a veteran social worker and mission catalyst, and **Adeline Rose** Jothy Malar, a former principal, were the backbone and inspiration for establishing Winrose International Campus as the Hill Country's first standalone vocational training center that is driven solely by its mission and vision.

R.J. Sathya Reka Godwin, the founder/director of Winrose, founded the institute in 2007 with the goal of raising educational standards of the children in the hill country as her personal mission, who also happened to be one of the three offspring of Godwin and Rose.

Celebrating the 15<sup>th</sup> year of operations and proudly stepping towards the 16<sup>th</sup>, Winrose has **guided 1028 registered students by the end of 2021.**

Our primary goal is to encourage and train underprivileged tea plantation youths in Sri Lanka to pursue higher education and vocational training, by providing access to expensive professional and vocational training courses. as well as aiding and mentoring them in their quest for higher education.

Since 2016, we have helped hundreds students who have passed the G.C.E. advanced level with further education. As a result, many have secured reputable jobs in government and private organizations. We have produced remarkable results by using very minimal human and physical resources.

## **Our Vision**

To transform underprivileged youths in the hill country of Sri Lanka as qualified and skilled professional workforce in specific industries who will serve as the backbone of the Sri Lankan economy and development as their ancestors were, by improving their English language skills, ICT, vocational, and academic qualifications, and to make them the Sri Lankan ambassadors of love, compassion, and humanity towards mankind and all the living and non-living elements that the universe bestowed upon to save for future generations. further to develop their personality through a holistic approach and to help them grow mentally, physically, spiritually, emotionally, financially, and socially.

## **Our Mission**

Provide the best culturally based English, Information and Communication Technology, soft skills, and vocational education for youth to see the world around them from a broader perspective and to choose the best in all aspects and phases of life and leave their footsteps for the next generation to follow.

## **Our Core Values**

Be the Change

Be the man of value

Aim at excellence

## **Our Sincere Gratitude**

Integrity and transparency are the values of success of Winrose. We maintain 100% transparency with our donors and value all kinds of supports equally. We make all our donors aware of the supports received by us. We are committed to continue our services despite of the challenges that we face.

Mr. Manik Jayakumar founder of Two Leaves Trust and Qtrade Teas – USA who was a veteran in the tea plantation sector in Sri Lanka leads a Home-based disabled care giving and many other communities support projects in Haputale and Haldummulla region extended his support in paying the salaries to the staff. His support was the primary reason for all the achievements of Winrose during the past one and a half years.

The temporary Shelter for Winrose was provided by Mr. R. Gnanasekaram, the general manager of Stassen Bio Tea Garden at the unpolluted environment located at the world's first Bio Tea Project since the end 2018. He engages our youths in many training programs conducted by him. Mr.R.Gnanasekaran also dedicates his life towards youth development. We also thankful to Stassen Natural Foods (PVT) Ltd for giving us the shelter with water and electricity facilities.

Hon. Mr. Skanda Kumar, former Australian High Commissioner to Sri Lanka guides and supports Winrose since September 2019. The initial donation was given by him to renovate the building in the memory of his parents.

He also coordinates with his friends and family and directs supports to Winrose. Computer lab facilities were upgraded through his intervention. He introduced new technological facilities to our campus.

Winrose was supported by him during the financial crisis. Our students have got a golden opportunity to learn conversational English from Mr. Skandakumar.

Rev. Bishop J. Alan Neal, the founder of Elijah's Bread Ministries and Agape Germany who has been involved in numerous social works in Sri Lanka since 2004 paid the salaries for the director for one year to work for Winrose after the completion of her five-year assignment in the northern region at a similar education project.

Bishop also donated 2 million worth of furniture and few computers to Winrose. Though Winrose was hit by severe financial hardships in 2019 until the mid of 2020 we never stopped our path towards the

growth of success.

Mr. Vasudevan Rasiah a hotelier (C.E.O of A'Lankaa Resorts and Spa) and a well-wisher of Winrose supported us during the initial stage to establish the institute as a recognized vocational training center.

He also helps many students to pursue their higher education and vocational qualifications.

Mr.S.Kannan

Mr. S. Kannan, a leading businessman in Sri Lanka supported Winrose in Establishing hospitality kitchen with basic kitchen equipment and tools. Students have gained hands on experience in professional cookery before they are placed in industrial training.

Mr.Sean Nathan

Mr. Mukuntha Ramanathan, our mentor, He is assisting us in several ways. He has been a guiding light for Winrose international campus.

### **Care for Education**

Care for Education forum has been a great platform for Winrose International Campus. We were given several opportunities to do presentation

## Winrose International Campus Donor List

Name of the Donor	Organization/designation/Destination	Type of Help provided
Dr.Devarani Anandasabapathy President Mrs. Rajam Theivendram	IMHO	3 computers, 1 laptop, computer furniture,WIFI Facility, photocopier

Messrs Rohan Wijyaratna, Nimal perera Harindra Perera.	Authors – The Unfinished Odyssey	The Unfinished Odyssey Community Library
Mr. Punithakumar	Adore Travel - USA	Donation
Candleaid		Books donation

### Background Information/Statement of the Problem:

The estate sector has been identified by the experts, as the most vulnerable community in Sri Lanka in terms of cultural, educational, financial, and social aspects. Identifying the various problems and discriminations faced by them, many national, international, private, and government sectors have implemented an immense number of development projects to uplift the living standards of plantation workers and their families. Even though the contributions of these organizations are noteworthy with success stories, there has always been a question about sustainability. Although considerable changes are seen in the community, the ultimate growth rate of the development is comparatively very low as priority is not given to developing the educational system. Although there are admirable methods that were adopted, the "trend-setting" approach is ignored compared with the other communities in Sri Lanka. A trend will be successful only if it is adopted and implemented by the majority of the community. People should influence each other. We create the originals that will be copied by others.

Presently, youths in the tea plantations are not interested in working in the tea plantations and are moving away from the estate sector towards the urban area to work in the shops, garment industries, construction industries, and many other manufacturing industries.

Discrimination and not getting social recognition are the underlying problems of their decision to move away from the tea plantation sector. However, the majority of the youths are not qualified to secure decent jobs, as they have studied up to O/Ls and are not prepared to work again in the plantation industry.

We identified that learning conversational English gives social recognition and self-confidence for these youths. Through boosting the language skills and personality development Winrose conduct the following courses.

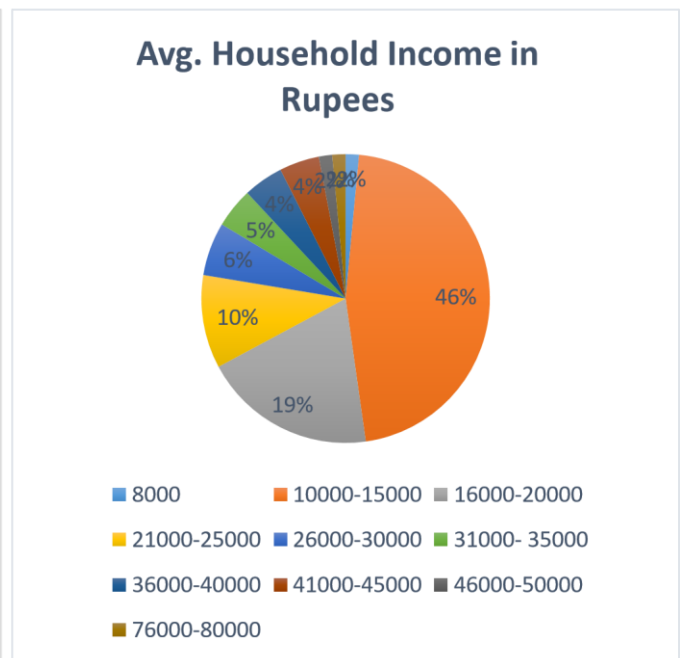

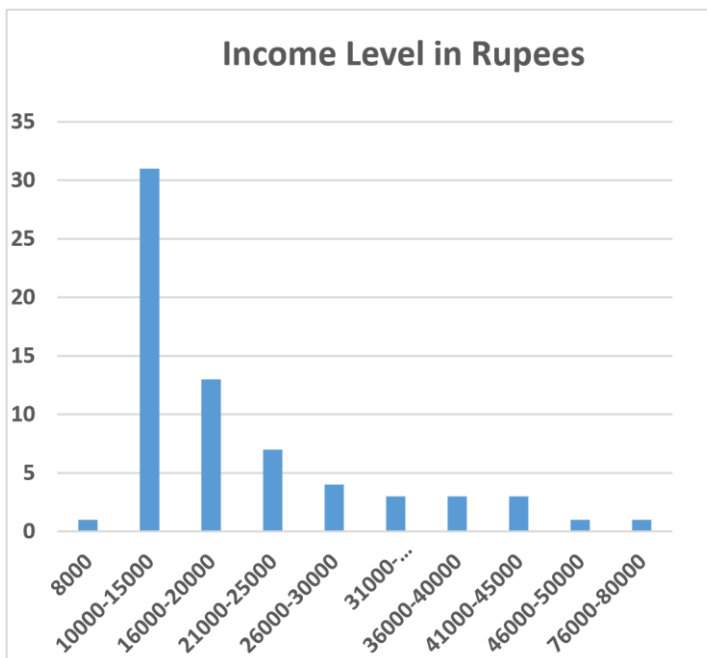

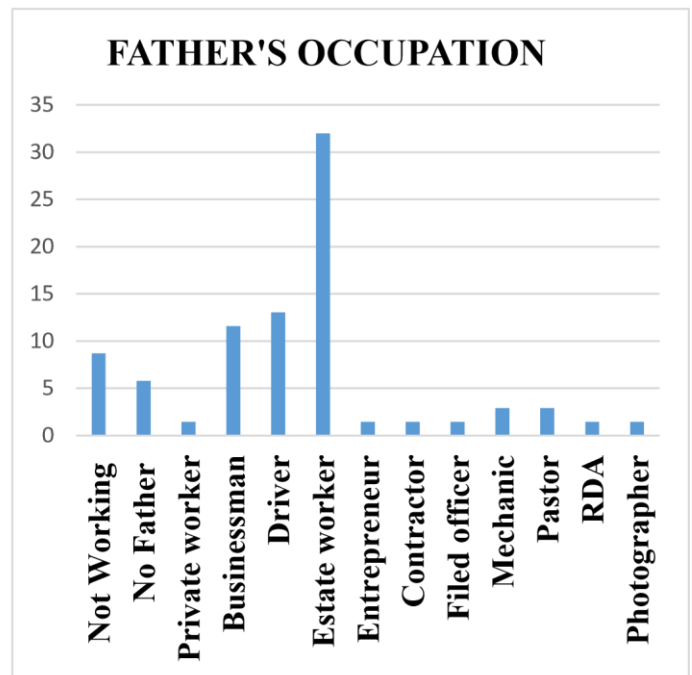

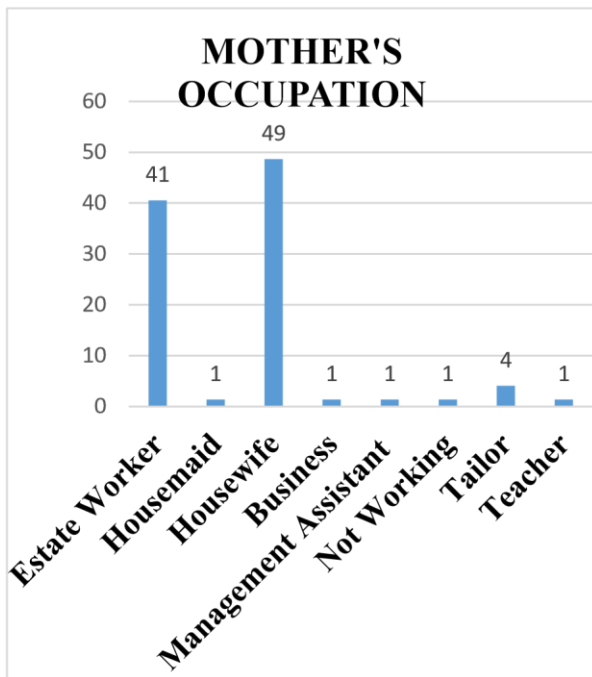

1. English
2. ICT
3. Hospitality Management
4. Financial management
5. Personality Development
6. Career Guidance
7. Mentoring Program

### **Socio Economic Survey**

The people of estate sector are undergoing very low level of living and severe poverty ridden condition. They are people who play crucial role in contributing to the foreign exchange earnings from total export. Because till today Sri Lankan economy depends upon estate sector to earn foreign exchange from primary commodities such as tea rubber and coconut which are produced by estate sector.

Winrose International Campus has completed a basic socio economic survey which will be expanded in future. The survey was mostly done online with the participation of 100 both advanced Level and ordinary level students from 13 plantation estates and villages who applied to follow vocational training courses and English at Winrose. The survey was done evidence based.

The survey has revealed and confirmed that the majority of the students are still facing poverty. Considering the economic hardship of the students especially during the pandemic Winrose has conducted all the classes totally free.

#### **New Face in 2020/2021**

Winrose has been running as a self-funded project since 2007 providing totally free services to the community. Witnessing the success of 11 years of untiring hard work Winrose had decided to move on to next step towards success and successfully registered as a vocational training center under the Tertiary and Vocational Education Commission of Sri Lanka on the 26<sup>th</sup> February 2018.

Though the institute was recognized by the government the institute suffered because of lack of funds and resources.

#### **Students Recruitment – 2020/2021**

Winrose International Campus started its education services with a new dimension end of 2020. We have recruited 83 students in 2021. Every year, after the Ordinary level and advanced level

examinations we conduct several awareness programs for both the students and their parents. The students who are willing to join our institution are recruited and the students who prefer different study paths are given necessary information and guidance to follow their preference of study.

Parents are also made aware about the support and guidance that they have to provide to their kids. We encourage especially the fathers to participate in the awareness programmes.

## **Hospitality Management**

Hospitality management was the first vocational qualification introduced in Winrose. The idea of starting the course was emerged when our own students graduated from the University College of Jaffna completing their higher national diploma in Hospitality management and BSc. In Hospitality management.

We recruited the lecturers who are qualified and experienced in hospitality field. We recruited 30 students at the end of 2020 in two batches and we were able to provide them the best learning experiences in hospitality field.

Initially we had to take the students to various hotels in this area for practical training. Introduced by Mr. R. Gnanasekaram, Mr. S. Kannan a philanthropist donated kitchen tools and equipment worth of Rs.700,000. The donation has facilitated the students to learn professional cookery.

**Figure 1 First sweet made by our donor Mr.Kannan**

After successfully completing the course 27 students are presently undergoing industrial training at various star class hotels in Sri Lanka and 13 students have secured permanent jobs after the completion of training.

**Figure 2 - 3 days of workshop in Hospitality basics - By Chef. Lee**

**Figure 3 Field Visit and industrial training**

**Figure 4 Teaching Culinary art**

**Figure 5 Covid never stopped our practical trainings**

**Figure 6 ready to face the industry**

### **Information and Communication Technology**

ICT in education improves engagement and knowledge retention: When ICT is integrated into lessons, students become more engaged in their work. This is because technology provides different opportunities to make it more fun and enjoyable in terms of teaching the same things in different ways. As a consequence of this increased engagement, it is said that they will be able to retain knowledge more effectively and efficiently.

Students with low IQ are no longer at a disadvantage as they have access to essential material and special ICT tools can be used by students to make use of ICT for their own educational needs.

At Winrose we teach students “Information and Communication Technology” course which is accredited by the Tertiary and Vocational Education Commission of Sri Lanka, and also, we incorporate technology in the classes to enhance and facilitate the learning process.

To develop the ICT capabilities of the students we provide them with meaningful activities, embedded in purposeful subject-related contexts

Our Computer Lab consists of Ten computers.

Winrose IT Center enables the students to learn in a friendly, supportive, environment. It’s a chance for beginners to learn the basics of computing but also get formal qualifications at the same time. and it’s a great place to be a student as well.

Presently, we are equipped with ten computers donated by Dr.Devarani Anandasabapathy through IMHO, Manitha Neyam Trust and Vanni Hope Australia.

We offer computer application assistant course which is approved by the Tertiary and Vocational Education Commission of Sri Lanka. Our students are given extra coaching on typing skills in English, Tamil, and Sinhala.

### **Learning Computers with the new facility**

### **Technological Facility Donated by Manitha Neyam Trust**

The Manitha Neyam Trust donated three full sets of computers to the Winrose International Campus. Our lab didn't have adequate computer resources. We thank the Manitha Neyam Trust for donating us the computers. This is a good opportunity for our Tea Plantation community students to learn about technology and computers. Mr.Kailash Aravindan, treasurer of Manitha Neyam Trust USA who was in Sri Lanka on a short visit in November 2021 arranged the computer donation.

### **Computer Donation - Manitha Neyam Trust**

## Computer Donation - Vanni Hope and USDF

The Vanni Hope and USDF donated four computers to Winrose international campus. Mr. Muralitharan from USDF and Mr.Senthujan from Vanni Hope visited our organization and to handover the donation. The donation was coordinated by Mr.Skandakumar former Australian High Commissioner. Mr.Ranjan, Chairman of Vanni Hope Australia approved the donation to Winrose. Usually the computer donations of Vanni Hope are given to government schools only.

## Computer Donation - Manitha Neyam Trust

Donations Received from

Donors	No. of Computers & other equipment
Dr.Devarani Anandasabapathy through IMHO – President Mrs. Rajam Theivendram	3 computers, 1 laptop, computer furniture,WIFI Facility, photocopier
Manitha Neyam Trust – Mr.Aravinthan Kailash	3 computers
Vanni Hope – Mr. Ranjan through USDF	4 computers

## Financial Accounting

Financial literacy is a core life skill for participating in modern society. Children are growing up in an increasingly complex world where they will eventually need to take charge of their own financial future.

National surveys show that young adults have amongst the lowest levels of financial literacy. This is reflected by their general inability to choose the right financial products and often a lack of interest in undertaking sound financial planning. For example, in the plantation sector most youths buy three wheelers when their parents get their provident funds. They tend to pay the first down payment but will struggle to pay the installments and will end up getting their three wheelers seized by the vehicle companies. It's also common in the plantation sector to get micro loans with higher interest rate.

Even from an early age, children need to develop the skills to help choose between different career and education options and manage any discretionary funds they may have, whether from allowances or part time jobs. These funds may entail the use of savings accounts or bank cards. Winrose aims to create more students who are financial literate.

### **Introducing New Course - AAT Course (Association of Accounting Technicians)**

Anjana Thiyagaraja BBA (UG) (Operations Management. SPCL) University of Peradeniya Commenced AAT first level classes during April 2020 for students who are interested in

pursuing their career in accounting & financial field. This was the first class for Tamil medium students in this region. 10 students are enrolled in this course. And more students are being recruited.

The classes were initiated by Miss. Anjana Thiyagaraja who is an Undergraduate of University of Peradeniya also a product of Winrose International Campus. She was the first inspiration to the students in Haputale region to enter university in commerce stream.

**Figure 2 We are new to accounting field**

We also conduct AAT courses for the students who have completed their ALs. In the year 2021 ten students have successfully completed level one of AAT examination.

Encouraging Extracurricular activities and Encouraging **Holistic development essentially means the development of intellectual, mental, physical, emotional, and social abilities in a child so that he or she is capable of facing the demands and challenges of everyday life.** These abilities are vitally important for success in professional fields of work.

Every child is unique. He or she has unique personality traits, interests, preferences, values, attitudes, strengths, and weaknesses. Winrose help every child find his or her unique place in the world in alignment with the uniqueness that he or she has. In order to achieve this, the holistic development of a child is of utmost importance.

We encourage students considering their preference and talents. We make them to build a strong foundation in their families and society. Making responsible youths is our ultimate goal.

### **Caring Elders**

We teach our students to care for elders and disabled.

Mmm ! It's so yummy

### Caring the environment

### Teaching Table Manners

## Celebrations

## Training Programs

### **Psychosocial Intervention Course with World Vision**

Winrose International Campus facilitated the community volunteers who are attached to the Children's Voice Matters project implemented by World Vision Sri Lanka to follow a three-month course in Psychosocial Intervention designed by Ms. Anusuya Godwin and delivered by Mr. S. Divagar. Winrose International Campus issued the certificate to the participants free of charge and the event was held on 17<sup>th</sup> October 2021 at the District Secretariate of Nuwara Eliya. The director and the staff of Winrose attended and issued the certificates.

### **Ambassadors' consortium**

Winrose Ambassadors Consortium is the volunteer body which was formed by the past pupils of our campus who will be the ambassadors to promote education in our region. The office bearers were elected by an online poll and 317 old students of Winrose participated in the poll. 32 members contested in the election and 16 members were selected as members for the committee.

1. To encourage continuous education among the youths
2. To create more youth mentors in our society who will guide the students who pass out OLs and Als each year.
3. Encourage youths to pursue higher education
4. Monitor students' performance
5. Guide the students who complete their OLs and ALs

During the month of July, we have conducted three Zoom meetings and training sessions on the following dates.

1. Online Election was conducted on the 10<sup>th</sup> June 2021.
2. Formation of Consortium -13<sup>th</sup> June 2021
3. Training sessions and Weekly meeting – Three training sessions were conducted during June 2021
